

Cherish Banini Seinty

I am a multifaceted IT professional with a diverse skill set and a passion for technology. A highly adaptable and fast learner with the ability to quickly grasp new concepts, technologies, and tasks. Known for seamlessly transitioning between diverse projects and responsibilities, effectively applying a wide range of skills and knowledge. My experience spans various areas, including C#, SQL, Flutter, CCNA, UI/UX, React, HTML, and AWS. As an AWS Certified Solutions Architect Associate, I possess comprehensive knowledge of AWS services, architecture, and security practices with certifications from **Udemy**. In addition to my technical expertise, I have also delved into the world of chatbot development using GPT models, specifically ChatGPT, with proficiency in React.
